

SAYAN JANA

DATA ANALYST

PROFILE SUMMARY

I am a data analyst with a master's degree in data science and strong analytical, quantitative, and communication skills. Experienced in data cleaning, statistical analysis, visualization, and dashboard development using Python, SQL, Excel, Power BI, and R. Adept at translating complex datasets into clear, accurate insights to support evidence-based research and decision-making. Comfortable working independently and collaboratively in deadline-driven environments.

EDUCATION DETAILS

- **M.Sc. Data Science - (2023 - 2025)**
Manipal Academy of Higher Education | C.G.P.A. - 9.2
- **B.Sc. ECONOMICS HONOURS - (2018-2021)**
University of Calcutta, Kolkata
- **SENIOR SECONDARY EDUCATION - (2018)**
Aditya Academy Secondary, Kolkata | CBSE
- **SECONDARY EDUCATION - (2016)**
Aditya Academy Secondary, Kolkata | CBSE

CERTIFICATION

- **Specialization: Business Statistics and Analysis**
RICE University, Coursera - (April, 2025)
- **Microsoft Power BI Data Analyst**
Microsoft, Coursera - (October, 2025)
- **Introduction to Data Analysis Using Excel**
RICE University, Coursera - (April, 2025)
- **Databases and SQL for Data Science with Python**
IBM, Coursera - (April, 2025)
- **Building Statistical Models in R: Linear Regression**
Coursera - (May, 2024)

SKILLS

- **Python (Pandas, NumPy)**
- **SQL**
- **Power BI**
- **DAX**
- **Power Query**
- **Advanced Excel**
- **Data Cleaning & Validation**
- **Exploratory Data Analysis,**
- **Regression Analysis,**
- **Data Visualization,**
- **Dashboarding,**
- **Statistical Analysis,**
- **Stakeholder Communication**

EXPERIENCE

Business Analytics Intern

Labmentix - (Sept, 2025 - present)

- Conducted data cleaning, transformation, and validation to ensure accuracy and consistency for analysis and reporting.
- Built interactive Power BI dashboards using Power Query and DAX to track KPIs, trends, and comparative metrics.
- Performed exploratory data analysis (EDA) using Python, SQL, and Excel to generate actionable insights.
- Delivered clear, stakeholder-ready reports and visualizations aligned with business and analytical objectives.
- Managed multiple analytical tasks simultaneously while meeting quality and timeline requirements.

WEB DESIGNER

The Business Research Company - (Oct, 2022 - Sept, 2023)

- Designed and maintained responsive websites using HTML, CSS, Bootstrap, and JavaScript.
- Improved performance and speed by 60% through data-driven optimization using Google Analytics and GTmetrix.
- Worked collaboratively with cross-functional teams to deliver client-aligned outputs on schedule.

GRAPHICS DESIGNER

Alteus Biogenics Pvt. Ltd. - (Nov, 2020 - May, 2022)

Created a variety of design materials—including business cards, folders, banners, pamphlets, and social media creatives—while maintaining consistent and high-quality brand visuals.

PROJECTS

- **Medibuddy Insight Analysis - Tools: Python (Pandas, NumPy, Matplotlib/Seaborn), SQL**
 - Conducted structured exploratory data analysis on healthcare datasets to identify patterns in service utilization and user behavior.
 - Ensured data quality through cleaning, validation, and transformation using Python.
 - Summarized analytical findings into clear visual and written outputs to support evidence-based insights.
- **Ola Insights Analysis - Tools: PostgreSQL, Python, Pandas, Power BI, DAX, Streamlit**
 - Built an end-to-end analytics solution analyzing ride bookings, revenue, cancellations, and customer behavior.
 - Designed structured data models and dashboards to communicate insights clearly to non-technical audiences.
- **IPL Data Analysis - Tools: Power BI, Power Query, DAX**
 - Analyzed team performance, player statistics, venue trends, and toss impact.
 - Created calculated measures and transformations to enhance analytical depth.
- **Housing Market Data - Tools: Excel**
 - Developed regression models to estimate housing prices using historical datasets.
