

SAYAN JANA

DATA ANALYST | BUSINESS ANALYST | DATA SCIENCE GRADUATE

6290316422 | sayanjanawd@gmail.com | **Linked In:** linkedin.com/in/sayanj1999 | **Portfolio:** sayanj-portfolio.netlify.app

PROFILE SUMMARY

Data Analyst and Data Science postgraduate with hands-on experience in SQL, Python, Power BI, PostgreSQL, and statistical analysis through business analytics internship and real-world projects. Experienced in exploratory data analysis (EDA), dashboard development, KPI reporting, data visualization, and predictive analytics. Passionate about transforming data into actionable business insights and supporting data-driven decision-making.

EDUCATION

- **M.Sc. in Data Science** – Manipal Academy of Higher Education – 2023-2025 - 9.21 C.G.P.A.
- **B.Sc in Economics** – Calcutta University – 2018-2021
- **Higher Secondary Education** - CBSE – Apr, 2018
- **Secondary Education** - CBSE – Apr, 2016

EXPERIENCE

Business Analytics Intern – Labmentix (Sept 2025 – March 2026)

- Performed data cleaning, transformation, and validation to support business reporting and analytics workflows.
- Conducted exploratory data analysis (EDA) to identify customer trends, operational patterns, and performance insights.
- Built interactive Power BI dashboards for KPI monitoring and business performance tracking.
- Collaborated with stakeholders to translate business requirements into analytical reports and actionable insights.
- Applied statistical analysis and feature engineering techniques to improve dataset usability and reporting accuracy.
- Supported data-driven decision-making through visual storytelling and analytical presentations.

Web Designer – The Business Research Company (Oct 2022 – Sept 2023)

- Designed and developed responsive, user-friendly websites aligned with company branding using HTML, CSS, Bootstrap, and JavaScript.
- Improved website performance and usability through responsive design, optimized navigation, and page load efficiency improvements.

Graphics Designer – Alteus Biogenics Pvt. Ltd. (Nov 2020 – May 2022)

- Created a variety of design materials—including business cards, folders, banners, pamphlets, and social media creatives—while maintaining consistent, high-quality brand visuals.

TECHNICAL SKILLS

- **Programming Languages**
Python, SQL, R
- **Data Science & Machine Learning**
Machine Learning Fundamentals, Natural Language Processing (NLP), Recommendation Systems, Regression Analysis, Predictive Modeling, Feature Engineering, Statistical Modeling, Hypothesis Testing, Exploratory Data Analysis (EDA)
- **Business Intelligence & Visualization**
Power BI, DAX, Power Query, Advanced Excel, Dashboard Development, KPI Reporting, Data Visualization
- **Python Libraries**
Pandas, NumPy, Scikit-Learn, Matplotlib, NLTK
- **Database & Data Management**
PostgreSQL, SQL Queries, Data Cleaning, Data Validation, Data Transformation, Data Modeling
- **Professional Skills**
Data Storytelling, Analytical Thinking, Problem Solving, Stakeholder Communication, Cross-Functional Collaboration

PROJECTS

<https://sayanj-portfolio.netlify.app/projects>

Movie Recommendation System - Tools & Technologies: Python, Scikit-Learn, NLP, NLTK, Pandas, NumPy, Streamlit, TMDB API

- Developed a content-based recommendation engine using Natural Language Processing (NLP) techniques to suggest movies based on genres, keywords, cast, and crew information.

- Implemented text preprocessing, stemming, feature extraction, and vectorization using CountVectorizer and NLTK to create meaningful movie representations.
- Built a similarity model using Cosine Similarity to identify and recommend the most relevant movies from a dataset of 5000+ movies.
- Integrated TMDB API for dynamic retrieval and display of high-resolution movie posters, enhancing user experience and application interactivity.
- Designed and deployed an interactive Streamlit web application with custom UI components and efficient runtime similarity computation.
- Applied machine learning concepts including feature engineering, text mining, recommendation algorithms, and model optimization to deliver personalized recommendations.

Ola Business Analytics Dashboard- Tools: PostgreSQL, Python, Pandas, Power BI, DAX, Streamlit

- Performed exploratory data analysis and feature engineering on ride-booking datasets.
- Built interactive dashboards to monitor revenue, ride success rates, customer behavior, and cancellation trends.
- Generated business insights through KPI tracking and visualization.

Healthcare Analytics Dashboard - Tools: Python, SQL, Pandas, Matplotlib

- Conducted statistical analysis and exploratory data analysis on healthcare service datasets.
- Identified utilization patterns and operational trends through data-driven analysis.
- Developed visual reports supporting business decision-making.

IPL Performance Analytics Dashboard - Tools: Power BI, Power Query, DAX

- Built interactive sports analytics dashboards to evaluate player and team performance.
- Developed advanced DAX measures and performance metrics.
- Created data models and visualizations for trend analysis.

Housing Price Prediction - Tools: Excel, Data Analysis ToolPack, Multiple Linear Regression, Statistical Analysis, Predictive Analytics, Data Visualization

- Built a multiple linear regression model in Excel to identify key drivers of housing market values.
- Performed statistical analysis, hypothesis testing, and coefficient interpretation on demographic, economic, and property-related variables.
- Achieved an R² of 0.52, explaining over 50% of housing value variation and providing insights for real estate valuation.

CERTIFICATION

- **Microsoft Power BI Data Analyst** – Microsoft (Coursera) – Oct, 2025
- **Databases and SQL for Data Science with Python** – IBM (Coursera) – Apr, 2025
- **Specialization: Business Statistics and Analysis** – Rice University (Coursera) – Apr, 2025
- **Introduction to Data Analysis Using Excel** – Rice University (Coursera) – Apr, 2025
- **Building Statistical Models in R: Linear Regression** – Coursera – May, 2024
